BY GAINSBOROUGH

VERTA™ SERIES

LINEAL

Subtle, architectural lines create planes to reflect light in every direction

TACTILE SURFACE

Straight edges transition to gently rounded backs, curving into your hand and creating a soft touch point

STAINLESS STEEL

Constructed from marine-grade stainless steel gives Verta strength, presence and lasting beauty

RADIUS CORNERS

Hard, straight lines soften into a radius corner, creating a juxtaposition between straight and curved

Verta [värd]

1. From Swedish (“worth, worthy”)

2. (archaic) match (equal or superior in comparison)

ALL THE ELEMENTS

Verta’s range of sliding and hinged door furniture gives you the freedom to create spaces you love.

Beautifully designed products need attention to detail from creation to completion. Every element of Verta has been sourced, crafted and finished by experts.

Each piece of Verta is constructed from stainless steel. We start with one of the highest grades of stainless steel available - 316 marine-grade.

After construction, Verta is tested. And tested. And tested again. To endurance standards of 200,000 cycles.

Verta’s precision engineering, uncompromised design and superior construction is the perfect balance between functionality and beautiful design.

GRAND ENTRANCES

Create a grand entrance to your home with Verta's Entrance Pull Handle. Make a bold statement with your front door and showcase stylish accents throughout your home.

Enchant your visitors with classic lines and modern design; delight senses with tactile surfaces, hard steel and soft edges. Enjoy a stylish entrance each time you enter your home.

Close one door, open another. Match the back door to the front. Inside or out, Verta's designer accents reflect and enhance your individual style.
