FURNITURE OPTIONS

One Locking Platform. Two families of furniture. All Virtus locks can be paired with Austral Lock's Forge and Verta ranges. Using shared lock bodies between both furniture options, simplifies installation and product selection, while making premium project upgrades easy.

FORGE

Austral Lock's Forge series has a zinc substrate and can be locally powder coated to colour match any project.

With its clean modern lines, Forge is the ideal choice for for projects with mortice furniture, sliding surface mount patio doors and security screens.

VERTA

The Verta series is our premium range of door furniture. Made from a 316 stainless steel substrate, Verta is available in Satin Stainless and PVD Black finishes.

Engineered to last, designed to wow, Verta provides high durability and excellent corrosion resistance.
